INDEPENDENT AUDITOR'S REPORT

Ms. Monica Erickson, Director
California Department of Human Resources
Savings Plus Program
Sacramento, California

Opinions

We have audited the accompanying combined financial statements of the State of California Department of Human Resources Savings Plus Program (the Plan), which comprise a 457(b) Plan, 401(k) Plan, a Part-time, Seasonal, and Temporary Employees Retirement Program (PST Program), and an Alternate Retirement Program (ARP), as of and for the years ended December 31, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Plan's basic combined financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan, as of December 31, 2025 and 2024, and the respective changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Combined Financial Statements section of our report. We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards (GAAS) and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 12, 2026 on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025 AND 2024**

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section presents management's discussion and analysis of the California Department of Human Resources ("CalHR") Savings Plus Program's ("Savings Plus") financial performance for the years ended December 31, 2025 and 2024 and 2023.

Savings Plus administers a deferred compensation plan ("457(b) Plan") established in 1974 under Section 457(b) of the Internal Revenue Code (IRC); a tax-deferred thrift plan ("401(k) Plan") established in 1985 and implemented in 1989 under Section 401(k) of the IRC; and a Part-time, Seasonal, and Temporary Employees Retirement Program ("PST Program") established in 1991 under Section 457(b) of the IRC. Savings Plus administered an Alternate Retirement Program ("ARP") established in 2004 under Section 401(a) of the IRC. ARP closed to new participants effective July 1, 2013, and as of April 30, 2024, all assets have been distributed to participants and beneficiaries from the Plan. CalHR's authority to establish these plans is found in the *California Government Code* sections 19993, 19999.5, 19999.2, and 19999.3, respectively. The four plans together are referred to as the "Plan" or "Savings Plus" for the sake of this document.

USING THE FINANCIAL REPORT

This discussion and analysis serves as an introduction to the Plan's basic combined financial statements comprised of the following components: (1) Combined Statement of Fiduciary Net Position, (2) Combined Statement of Changes in Fiduciary Net Position, and (3) Notes to Combined Financial Statements. Collectively, this information presents the fiduciary net position held in trust for Plan participants.

The Combined Statement of Fiduciary Net Position reports the Plan's assets, liabilities, and resultant fiduciary net position where $\text{Assets} - \text{Liabilities} = \text{Fiduciary Net Position}$. The assets are held in a trust for the benefit of participants at the Plan's year-end, which is December 31. It can be thought of as a snapshot of the financial position of the Plan at that specific point in time.

The Combined Statement of Changes in Fiduciary Net Position reports the Plan's transactions that occurred during the plan year where $\text{Additions} - \text{Deductions} = \text{Net Change in Fiduciary Net Position}$. It is a record of the activity that occurred during the year and explains the changes that have occurred since the prior year's fiduciary net position on the Combined Statement of Fiduciary Net Position.

Although the 457(b) Plan and the 401(k) Plan are separate, distinct retirement savings plans, they are collectively referred to as the "Main Plan." At December 31, 2025, Main Plan investment options consisted of eleven Target Date Funds ("TDFs"), two actively managed equity funds, one actively managed socially responsible fund, one actively managed stable value fund, one actively managed bond fund, one short-term investment fund – cash ("STIF–Cash") fund, and four passively managed index funds. In addition, the Plan offers a self-directed brokerage account ("SDBA") option within the Main Plan. Through December 19, 2025, the PST Program invested assets in a short-term investment fund. At December 31, 2025, PST Program invested assets in a stable value fund. ARP invested assets in a short-term investment fund until it closed in April 2024. The Plan utilizes a combination of separately managed investment accounts, collective investment trusts, and mutual funds.

NOTES TO FINANCIAL STATEMENTS

The notes to the combined financial statements are an integral part of the combined financial statements and include additional information not readily evident in the statements themselves. Information in the combined financial statement notes is described below:

- Note 1 describes the Plan with descriptions of staff support and administration, participant accounts, vesting, portfolio structure, participant loans, SDBA, administrative expenses, participant-directed fees, contributions, benefit payments, and in-service withdrawals.
- Note 2 summarizes the Plan's significant accounting policies.
- Note 3 describes the Plan's investment options including required disclosures and risks.
- Note 4 identifies the Plan's contributions/transfers and loans receivable values at year-end.
- Note 5 describes *Transfers In and Transfers Out* values.
- Note 6 describes the Plan's termination rights.
- Note 7 describes the Plan's tax status.

FINANCIAL HIGHLIGHTS

457(b) Plan

The following financial highlights occurred during the 457(b) Plan years ended December 31, 2025 and 2024:

- The 457(b) Plan's fiduciary net position increased from approximately \$12.185 billion to \$13.947 billion from 2024 to 2025. This is an increase of approximately \$1.762 billion, compared to an increase of approximately \$1.528 billion from 2023 to 2024. The change in fiduciary net position in both years was primarily due to an increase in net appreciation in fair value of investments and net contributions/withdrawals. Net appreciation (depreciation) in fair value of investments, which measures net change in the fair value of investments and interest earned on those investments, was approximately \$1.735 billion at 2025 year-end as compared to \$1.457 billion at 2024 year-end. In addition, net contributions into and withdrawals from the 457(b) Plan resulted in an inflow of \$31 million in 2025 as compared to \$77 million in 2024.
- The number of 457(b) Plan participant accounts increased from 192,070 to 198,331 from 2024 to 2025; an increase of 6,261 accounts as compared to an increase of 7,162 accounts from 2023 to 2024. Participants with 457(b) Plan accounts may have 401(k) Plan accounts as well.
- At December 31, 2025, the five largest 457(b) Plan investment options were: Large Cap Index Fund (30.4%); SDBA (8.6%); Small Mid Cap Fund (7.5%); SSGA Target Date–Income (6.4%); and STIF–Cash (6.3%), totaling 59.2% of 457(b) Plan assets. Combined TDF assets totaled 31.3% of 457(b) Plan assets. At December 31, 2024, the five largest 457(b) Plan investment options were: Large Cap Index Fund (19.5%); Large Cap Fund (10.6%); SDBA (8.1%); STIF–Cash (6.8%); and Mid Cap Fund (6.5%), totaling 51.5% of 457(b) Plan assets. Combined TDF assets totaled 24.9% of 457(b) Plan assets.

SAVINGS PLUS PROGRAM
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025 AND 2024**

FINANCIAL HIGHLIGHTS (CONTINUED)

401(k) Plan

The following financial highlights occurred during the 401(k) Plan years ended December 31, 2025 and 2024:

- The 401(k) Plan's fiduciary net position increased from approximately \$12.273 billion to \$13.899 billion from 2024 to 2025. This is an increase of approximately \$1.626 billion, compared to an increase of approximately \$1.486 billion from 2023 to 2024. The change in fiduciary net position in both years was primarily due to an increase in net appreciation in fair value of investments and net contributions/withdrawals. Net appreciation (depreciation) in fair value of investments, which measures net change in the fair value of investments and interest earned on those investments, was approximately \$1.718 billion at 2025 year-end as compared to \$1.522 billion at 2024 year-end. In addition, net contributions into and withdrawals from the 401(k) Plan resulted in an outflow of \$88 million in 2025 as compared to an outflow of \$32 million in 2024.
- The number of 401(k) Plan participant accounts increased from 145,181 to 147,760 from 2024 to 2025; an increase of 2,579 accounts as compared to an increase of 24,391 accounts from 2023 to 2024. Participants with 401(k) Plan accounts may have 457(b) Plan accounts as well.
- At December 31, 2025, the five largest 401(k) Plan investment options were: Large Cap Index Fund (33.3%); Small Mid Cap Fund (8.8%); SDBA (8.8%); SSGA TDF–Income (6.4%); and STIF–Cash (5.3%), totaling 62.6% of 401(k) Plan assets. Combined TDF assets totaled 26.8% of 401(k) Plan assets. At December 31, 2024, the five largest 401(k) Plan investment options were: Large Cap Index Fund (21.5%); Large Cap Fund (11.9%); SDBA (8.4%); Mid Cap Fund (7.7%); and STIF–Cash (5.5%), totaling 55.0% of 401(k) Plan assets. Combined TDF assets totaled 20.8% of 401(k) Plan assets.

PST Program and ARP

The following financial highlights occurred during the Plan's years ended December 31, 2025 and 2024:

- The PST Program's fiduciary net position increased from approximately \$117.2 million to \$124.6 million from 2024 to 2025. This is an increase of approximately \$7.4 million, compared to an increase of \$8.3 million from 2023 to 2024. The PST Program's asset increase was predominantly due to net appreciation in fair value of investments, which was \$6.1 million at 2025 year-end, compared to net appreciation in fair value of investments of \$5.1 million at 2024 year-end.
- The total number of PST Program participant accounts decreased from 71,813 to 68,201 from 2024 to 2025; a decrease of 3,612 accounts, compared to an increase of 927 accounts from 2023 to 2024.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025 AND 2024**

FINANCIAL HIGHLIGHTS (CONTINUED)

PST Program and ARP (Continued)

- ARP's fiduciary net position remained at zero, as the Plan liquidated its assets on April 30, 2024. Accordingly, the number of ARP participant accounts remained at zero at December 31, 2025.

OTHER HIGHLIGHTS

IRS contribution limits increased from \$23,500 in 2025 to \$24,500 in 2026 for each the 457(b) Plan and 401(k) Plan. The annual limit for Age Based Catch-Up contributions for participants aged 50 or older increased from \$31,000 to \$32,500.

The following SECURE 2.0 Act provisions went into effect in 2025 unless otherwise noted below:

- **Special Age-based (60-63) Catch-up (commonly known as Super Catch-up):** Participants ages 60, 61, 62, or 63 years old by the end of the calendar year can contribute up to \$11,250 instead of the standard catch-up available starting at age 50 (Age 50 Catch-up). This allows for a total contribution of \$34,750 in 2025 and a total contribution of \$35,750 in 2026 to 457(b), 401(k), or 403(b) plans.
- **Qualified Domestic Abuse Distribution:** Qualified participants may take penalty-free qualified domestic abuse withdrawals from their Savings Plus 457(b) Plan and/or 401(k) Plan accounts. Withdrawals must be the lesser of \$10,000 or 50 percent of the vested account balance without penalty. Withdrawals made under this provision may be repaid within three (3) years of withdrawal.
- **Roth Catch-up Contributions Required:** Effective January 1, 2026, participants making Age 50 Catch-up or Special Aged-based Catch-up who earned \$150,000 (as indexed for inflation) or more in FICA wages (earnings subject to Social Security taxes) in the previous year will be required to make the catch-up as a Roth (after-tax) contribution in most cases.

Effective January 1, 2025, Savings Plus entered into a new agreement with Callan Associates to provide consultant services in the area of plan design, provider search, and investment monitoring services. Callan has been a Plan consultant since 2019.

Effective February 5, 2025, the Plan increased the number of permitted loans from one loan per plan to two loans per plan, not to exceed four outstanding loans across both Main Plan accounts. Previously, participants were required to have a minimum account balance of \$10,000 and the minimum loan amount was \$5,000. As of February 5, 2025, the minimum vested account balance required to take out a loan decreased to \$2,000 and the minimum loan amount decreased to \$1,000.

In June 2025, the TDF assets transitioned to State Street Global Advisors (SSGA) TDFs. In addition, the STIF closed. In December 2025, Savings Plus completed the second phase of its Plan lineup redesign,

MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025 AND 2024**

OTHER HIGHLIGHTS (CONTINUED)

which added, removed, and renamed funds, and mapped assets in certain funds to new investment options. These changes were designed to improve participant long-term financial outcomes.

Savings Plus was recognized by Pensions & Investments Eddy Awards by being awarded first place in the Financial Wellness category for its *Roadmap to Retirement Readiness* campaign and in the Special Projects category for its online enrollment transformation. These awards recognize the Plan's strategic partnership with Nationwide to enhance retirement readiness for California state employees by delivering comprehensive, personalized, and engaging financial education.

ECONOMIC DISCUSSION

In 2025, the U.S. economy remained cautiously stable shaped by tighter financial conditions, moderating inflation, and ongoing global uncertainty. After years of disruption caused by the pandemic followed by an inflation surge, the U.S. entered the year with slower, but steadier, growth.

The labor market remained one of the strongest pillars of the economy. Unemployment remained relatively low by historical standards, and job openings, while fewer than in previous peak years, continued to outnumber available workers in several industries. Health care, advanced manufacturing, and clean energy sectors showed consistent hiring with moderate wage growth remaining strong enough to support consumer spending. However, some industries sensitive to interest rates, such as housing and commercial real estate, experienced slower hiring and reduced activity. Employment was stable overall but didn't expand at the rapid pace seen during the immediate post-pandemic recovery.

Inflation continued to decline in 2025 with three 25 basis point cuts, moving closer to the Federal Reserve's long-term target of two percent, forecasted to occur in 2028. Earlier aggressive rate hikes helped slow price increases by reducing demand in interest-sensitive sectors. Lower energy prices and improvements in global supply chains helped reduce inflation pressures. However, inflation remained elevated in certain service industries, such as housing and insurance. Although the pace of price growth slowed, many households still felt the cumulative impact of several years of higher cost of living.

Monetary policy played a key role in shaping the economy, as the Federal Reserve adopted a more balanced approach in 2025. After maintaining high interest rates to combat inflation, policymakers began signaling potential rate reductions as inflation showed continued improvement. The central bank emphasized data-driven decision-making, aiming to achieve a "soft landing" for inflation without triggering a recession. Financial markets reacted sensitively to policy guidance, as interest rate expectations influenced borrowing costs, investment decisions, and stock valuations.

Gross domestic product (GDP) was moderate, but positive. Consumer spending remained the primary driver of GDP, supported by employment stability and accumulated household savings. Government spending on infrastructure and clean energy initiatives also contributed to growth. Meanwhile, business investment was mixed. Companies invested heavily in artificial intelligence, semiconductor production,

MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2025 AND 2024**

ECONOMIC DISCUSSION (CONTINUED)

and renewable energy technologies, but remained cautious in sectors facing global demand uncertainty. International trade had mixed results, as slower growth in global economies affected export demand.

The federal budget deficit continued to be a significant concern in 2025. Government spending continued to exceed tax revenues, pushing national debt higher, while rising interest on existing debt caused additional strain on the federal budget. Policymakers in Congress debated how to address the deficit with some suggesting spending cuts while others argued for higher taxes on corporations and wealthy individuals. These political disagreements made major budget reforms difficult.

Geopolitical risks added further complexity to the U.S. economic outlook. Strategic competition with China intensified, particularly in technology and trade policy. Continued conflict involving Russia contributed to global energy and security uncertainties. These tensions affected supply chains, commodity prices, and investor confidence.

The U.S. economy in 2025 remained solid but operated within a more constrained environment than in recent expansionary years. Inflation transitioned more favorably for consumers, the labor market remained solid, and GDP growth continued at a sustainable pace. However, elevated public debt, geopolitical instability, and monetary policy formed a cautious outlook. The year emphasized the complexity of balancing growth, price stability, and fiscal responsibility in an interconnected global economy.

Whether a new enrollee, preparing for retirement, consolidating assets, or curious about investments or the Plan, Savings Plus is ready to help.

NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The California Department of Human Resources ("CalHR") administers the Savings Plus Program ("Savings Plus"), which consists of a deferred compensation plan ("457(b) Plan") established in 1974 under Section 457(b) of the Internal Revenue Code (IRC); a tax-deferred thrift plan ("401(k) Plan") established in 1985 and implemented in 1989 under Section 401(k) of the IRC; and a Part-time, Seasonal, and Temporary Employees Retirement Program ("PST Program") established in 1991 under Section 457(b) of the IRC. Savings Plus administered an Alternate Retirement Program ("ARP") established in 2004 under Section 401(a) of the IRC. ARP closed July 1, 2013 and all assets were distributed from the Plan as of April 30, 2024. CalHR's authority to establish these plans is found in the *California Government Code* sections 19993, 19999.5, 19999.2, and 19999.3, respectively. The 457(b) Plan and the 401(k) Plan together are referred to as the "Main Plan." The four plans together are referred to as the "Plan" or "Savings Plus" for the sake of this document.

The purpose of the Main Plan is to encourage and increase savings opportunities for state employees to better provide for and to complement their retirement income, including income received from their defined benefit retirement plan. Persons eligible to participate in the Main Plan include state employees, appointed and elected officers of the state, California State Judges, California State University employees, and other eligible state employees.

The PST Program was implemented as a result of the 1990 Federal Omnibus Budget Reconciliation Act. It is a mandatory program with the purpose to provide a retirement savings program for state employees not covered by CalPERS, Social Security, or other specified state retirement plans.

The purpose of ARP (a mandatory program) was to provide a retirement savings plan in lieu of retirement benefits under CalPERS during the first twenty-four months of state employment for certain employees first hired into state service (employment with the State of California) between August 11, 2004 and June 30, 2013. ARP liquidated on April 30, 2024.

Staff Support

Savings Plus is administered by CalHR, rather than by a governing board. CalHR's Director, as the Named Fiduciary, has ultimate oversight of, and responsibility for, the administration of the Plan. The Director has delegated oversight of the administration and policy development of the Plan to the Savings Plus Administrator and management team. In addition, the Director has delegated to the Savings Plus Investment Committee the authority to recommend investment-related decisions based upon advice and recommendations presented by the Plan's consultants.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Staff Support (Continued)

The Administrator leads the management team, which is responsible for administration and policy decisions. The management team supervises staff, sets policy for the administration of Savings Plus, and sets the overall direction and strategic vision of the Plan. Consultant recommendations impacting administration are submitted to the management team for consideration.

Savings Plus staff make recommendations to the Administrator and the management team on Plan design issues, fees, and policies. Staff monitor contract compliance; serve as project managers for service provider Requests for Proposals (RFP) and Requests for Information (RFI); serve as a liaison to the Third-Party Administrator (TPA), investment providers, investment consultants, legal counsel, and other third-party providers; and facilitate employee participation in the Plan. Staff establish, monitor, and revise the Plan documents, administrative fees, policies, and procedures for the administration of the Plans.

The Investment Committee is the body responsible for establishing and monitoring investment portfolios and other investment-related matters. The Investment Committee makes recommendations to the Director or the Director's designee on portfolio design, establishes and maintains the Investment Policy; evaluates investment performance; and reviews and votes on portfolio design, investment structure, securities lending program, monitoring guidelines, and manager standing based on recommendations from the Plan's independent consultant. The overall governance of the Investment Committee is documented in the Investment Committee Charter.

Administration

Savings Plus operates in an "unbundled" program structure. Nationwide Retirement Solutions, Inc. ("Nationwide") serves as the Plan's TPA. Nationwide provides consolidated recordkeeping services for the Plan and its participants; maintains the Savings Plus website; operates a call center; offers participants a self-directed brokerage account (SDBA) investment option through Charles Schwab; makes available fee-based managed account services through individual agreements between participants and an independent financial expert; conducts participant outreach and education; delivers marketing and communication services; reports investment performance to participants and to Savings Plus; and maintains the investment performance reports and fund fact sheets.

The Plan maintains separate contracts for the following services: investment management, trustee/custodial, securities lending, consulting, transition management, external legal counsel, and financial audit. Plan staff provide some in-house administrative functions.

Participant Accounts

Each participant's account is credited with the participant's contributions and earnings (realized and unrealized). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Vesting

Participant contributions and related earnings are immediately and fully vested.

Portfolio Structure

As of December 31, 2025, Savings Plus offered Main Plan participants twenty-one investment options and an SDBA through the following three-tiered structure:

Tier 1 – Asset Allocation Options: This tier consists of a SSGA TDF suite that includes options in five-year intervals, which aim to provide appropriate asset allocations that become more conservative as participants near retirement.

Tier 2 – Core Investment Options: This tier consists of index funds and actively managed funds that span the risk/return spectrum from capital preservation to bonds and equity.

Tier 3 – Specialty Option: This tier consists of the SDBA option offered through the Schwab Personal Choice Retirement Account® (PCRA).

Except for the SSGA TDFs, index funds, stable value fund, and socially responsible fund, the Main Plan investment options are constructed using a fund-of-fund structure. The underlying investment strategies for the fund-of-fund investment options include a total of eleven separate accounts, three commingled trust funds, and four mutual funds.

New enrollees into the Plan may elect their investment allocation during the enrollment process. Participants who do not elect an investment allocation are defaulted into the TDF that aligns with their date of birth. The asset allocations in the TDFs rebalance to become more conservative as the target date approaches. Each TDF assumes age 62 as the date that distributions begin. Once enrolled, participants may change their investment election for contributions at any time.

PST Program assets are invested in the Stable Value Fund–PST. The investment goal of this fund is to produce a stable return while avoiding negative returns. In most market environments, it should provide investors with a higher return than a money market fund while striving to maintain liquidity for participant-initiated transactions and safety of principal.

Additional information about Savings Plus investments is available at [savingsplusnow.com](https://www.savingsplusnow.com).

CalHR essentially uses competitive bidding processes to evaluate, select, and negotiate agreements with investment management companies in accordance with the *State Contracting Manual*, which can be found online at www.dgs.ca.gov/OLS/Resources/Page-Content/Office-of-Legal-Services-Resources-List-Folder/State-Contracting. Other state-approved non-competitive processes may be used if deemed appropriate.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Participant Loans (Main Plan Only)

A participant in active payroll status is eligible to take a loan from the pre-tax portion of their Main Plan accounts provided they agree to repay the outstanding loan balance, including accrued interest, within the specified period. Since participants borrow from their account, their loan does not affect their credit rating.

Participants are permitted to take two loans per plan, not to exceed four outstanding loans across both Main Plan accounts. Participants are required to have a minimum vested account balance of \$2,000 and the minimum loan amount is \$1,000.

For 2025 and 2024, the maximum loan amount is the lesser of 50 percent of the participant's combined plan account balances from all state-sponsored plans minus the participant's outstanding loan balances from all state-sponsored plans on the date of the loan or \$50,000 minus the highest outstanding loan balances from all state-sponsored plans within the last 12 months. In addition, the maximum amount available for a loan from each plan account cannot exceed 50 percent of the participants balance in that account, minus the outstanding loan balance in that account. The participant is charged a one-time \$75 loan initiation fee per loan.

Savings Plus offers two types of Loans: General Purpose for up to five years and Purchase of Primary Residence for up to 15 years. The Plan reports a participant loan default as a distribution – a taxable event in the year of default.

The loan interest rate is equal to the prime rate plus 1.0 percent. The prime rate used is based upon the rate published in the *Wall Street Journal* two weeks prior to the end of the most recent calendar quarter. The rate is effective on the first day of the next calendar quarter. As of December 31, 2025, the loan interest rate was 8.50 percent. As of December 31, 2024, the loan interest rate was 9.50 percent.

Self-Directed Brokerage Account (SDBA) (Main Plan Only)

The Schwab PCRA is the SDBA option offered by Charles Schwab & Co., Inc. (Member SIPC), the brokerage services provider. This service is made available through Nationwide. Participants may transfer assets from their Main Plan investments to the SDBA. Participants may also establish recurring transfers from their payroll contributions to their PCRA account.

This brokerage window allows participants to direct investments to a marketplace of retail investment options other than those available in the Plan's investment lineup. The SDBA allows greater flexibility by allowing the freedom to select and manage a portfolio from a larger universe of mutual funds, individual stocks, bonds, and a variety of other investment choices. Participants make their own investment decisions, have full discretion over the selection of investment options available to them on the brokerage platform, and assume all responsibility for the investments they choose in the SDBA.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Self-Directed Brokerage Account (SDBA) (Main Plan Only) (Continued)

Participants must maintain a minimum balance of \$2,500 or 50 percent of their total account balance, whichever is less, in their Savings Plus account (excluding the SDBA). Transaction-based commissions and fees (paid to Schwab) are deducted directly from the assets in the SDBA.

Participant Administrative Fees

The Plan assesses Main Plan participants an administrative charge of \$6.00 per quarter in each 457(b) Plan account and in each 401(k) Plan account. In addition, the Plan assesses an annualized asset-based fee of 0.04 percent, assessed quarterly at 0.01 percent against the first \$600,000 of each 457(b) Plan account balance and of each 401(k) Plan account balance, including the core account balance, active loan balance, and SDBA balance.

Participant-Directed Fees

Participants may incur the following participant-directed fees, which are paid to the TPA: managed accounts, loan initiation, ACH loan insufficient funds, check, overnight check, and qualified domestic relations order (QDRO), and may also incur a short-term trade (redemption) fee, which is reinvested into the impacted investment options.

Contributions

Main Plan contributions by eligible employees are voluntary. Participants predominantly contribute from their salary on a pre-tax basis. However, the Plan also permits contributions on an after-tax (Roth) basis. In accordance with the Bargaining Unit (BU) 06 Memorandum of Understanding, effective January 2025, eligible BU06 employees receive a monthly 401(k) Plan employer contribution equal to one percent of their base salary.

The State Controller's Office (SCO) is the primary payer of salary and processor of deductions of the Plan's contributions. There are a small number of payroll offices (e.g., Senate, Assembly, Legislative Analyst, District Fairs) that submit their contribution data separately.

In accordance with the IRC, the Plan limits an individual's annual contribution to an amount not to exceed the lesser of \$23,500 for 2025 and \$23,000 for 2024 or 100 percent of the employee's includable compensation.

The Plan provides certain catch-up provisions for participants aged 50 or older and for participants within three (3) years of their Normal Retirement Age, as defined by the Plan:

- Age-Based Deferrals – For 2025 and 2024, actively employed participants aged 50 years or older may contribute up to \$7,500 over the standard IRS contribution limit to their Main Plan accounts.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Contributions (Continued)

- Special Age-based (60-63) Deferrals – For 2025, actively employed participants who will attain age 60, 61, 62, or 63 years by the end of the calendar year may contribute up to \$11,250 over the standard IRS deferral limit to their Main Plan accounts.
- Traditional 457(b) Catch-Up – For 2025 and 2024, participants within the three (3) years prior to their Normal Retirement Age may be eligible to make a one-time election to contribute up to twice the annual contribution limit into their 457(b) Plan account for a maximum of three (3) consecutive years. The catch-up amount allowed is limited to the underutilized amount in the previous years while employed by the state and eligible to contribute to the 457(b) Plan. Participants may only use one of these catch-up provisions in the 457(b) Plan at a time.

Normal Retirement Age is the age specified in the 457(b) Plan Document and the age is typically chosen by the participant for the purpose of initiating the Traditional 457(b) Catch-Up election. To be eligible, the participant must have the right to retire and to receive full retirement benefits under the state's pension plan with no reduction for age or service and must not be later than age 70½.

Participants may cash out their accumulated unused leave time ("Lump Sum Pay") when they retire, a taxable event. Another option is to contribute all or a portion of their Lump Sum Pay into their Savings Plus accounts via pre-tax or Roth contributions. Both contribution types may allow participants to maximize their contribution while offering more flexibility with future distribution options. In addition, pre-tax contributions may allow participants to defer taxes.

For 2025 and 2024, participants who separated from service on or after November 1 could defer their Lump Sum Pay to their Savings Plus accounts into the following tax year, allowing them to potentially maximize contributions for both the current and following tax years.

Savings Plus allows in-plan Roth conversions for assets in the Main Plan. All pre-tax contribution sources, not including outstanding loans and balances invested in the SDBA, and earnings thereon, are eligible for in-plan Roth conversions in accordance with the standard in-service withdrawal distribution provisions. Savings Plus reports the gross Roth conversion amount to the IRS as taxable income in the year of the conversion.

For the PST Program, employees hired by the state or by the California State University (CSU) system on a part-time, seasonal, or temporary time basis, whose wages do not qualify for Social Security deductions or membership in CalPERS, are required to contribute 7.5 percent of gross wages on a pre-tax basis into their PST Program account. PST Program participants are permitted to enroll and contribute to the 457(b) Plan and 401(k) Plan.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

Contributions (Continued)

For ARP, as of July 1, 2013, new CalPERS membership-eligible state employees were appointed directly into CalPERS instead of into ARP. As such, no new contributions were added to ARP during 2025 or 2024. ARP assets liquidated on April 30, 2024.

Coordination limits apply to 457(b) Plan and PST Program contributions. Additionally, Coordination limits apply to the 401(k) Plan, 401(a) Plan, and 403(b) Plan contributions inclusive of any other such state sponsored plans.

Benefit Payments

Generally, participant accounts cannot be closed, and payments cannot be made until a “distributable event” occurs. A “distributable event” is an IRS approved event that allows payments from the Plan, such as death, disability, separation, retirement, etc.

Participants are eligible to take benefit payments from their 457(b) Plan pre-tax assets upon separation from state service or beginning at age 59½ regardless of employment status. Participants are eligible to take benefit payments from their 401(k) Plan pre-tax assets without an additional 10 percent tax for early withdrawal if they meet one of the following criteria: separated from state service during or after the year they turn age 55; for public safety employees, separated from state service during or after the year they turn age 50; or attainment of age 59½ regardless of employment status. Participants are eligible to take a tax-free qualified payment from their Roth assets if they meet the withdrawal guidelines stipulated above and the payment is made on account of death, disability, or attainment of age 59½ and the payment is made five years or more after January 1 of the first year the participant made a Roth contribution.

Participants have the following payment options from their Main Plan accounts: lump-sum payment, periodic payments, partial lump-sum payment, or rollover to another qualified plan or to an IRA. PST Program participants may take a direct payment or direct rollover from their PST account if they had no contributions into or out of their account for 90 days and are at least age 59½ years or separated from state service.

In-Service Withdrawals

A 457(b) Plan participant who experiences an unforeseeable emergency (as defined by the IRC) may apply in writing for an unforeseen emergency withdrawal of both their contribution and the associated earnings. A 401(k) Plan participant who experiences an immediate and heavy financial need (as defined by the IRC) may apply in writing for a hardship withdrawal of both their contribution and the associated earnings. Payments are subject to applicable taxes and may be subject to early withdrawal penalties.

NOTE 1 DESCRIPTION OF THE PLANS (CONTINUED)

In-Service Withdrawals (continued)

A participant may be entitled to a full withdrawal of their 457(b) Plan account prior to separation from service if they meet the following conditions specific to their 457(b) Plan account: (1) their account balance does not exceed \$5,000, (2) they have not made contributions during the two-year period ending on the date of distribution, (3) they do not have an active or a defaulted loan, (4) they do not have a freeze or hold on their account, and (5) they have not previously received a voluntary withdrawal distribution.

The Plan also permits participants to take the following in-service withdrawals from their 457(b) Plan and 401(k) Plan accounts:

- Qualified Birth or Adoption Distributions (QBAD) – allows for penalty-free, in-service withdrawals up to \$5,000 per individual within one year after birth or adoption of a qualifying child.
- Uniformed Service – allows for in-service withdrawals for participants on military leave for more than 30 days (may have income tax implications).
- Qualified Reservist – allows for penalty-free, in-service withdrawals from pre-tax contributions for participants on military leave for 180 days or more.
- Survivors of Domestic Abuse Withdrawals (as of April 2025) – allows for penalty-free withdrawals for victims of domestic abuse (self-certification). Survivors may withdraw the lesser of \$10,000 or 50 percent of their vested account balance and have up to three years from the distribution date to repay the withdrawal amount. Amounts repaid are treated as a rollover contribution and are not subject to the annual IRS contribution limit.

Visit the Savings Plus website for additional details about in-service withdrawals.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The combined financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, including all applicable effective statements of the Governmental Accounting Standards Board ("GASB"), and on the accrual basis of accounting.

Use of Estimates in Preparing Combined Financial Statements

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America may require management to make estimates and assumptions that affect amounts reported in combined financial statements and accompanying notes. Actual results may differ from those estimates.

Contributions and Contributions/Transfers Receivable

Contributions are recognized when amounts are withheld from employees' payroll and posted to the participants' accounts. *Contributions/Transfers Receivable* represents contribution amounts withheld from employee pay but not yet remitted to and recorded by the master trust as of December 31 and transfer amounts in-transit from the SDBA to the participants' core accounts at the TPA as of December 31.

Participant Loans and Loans Receivable

Participant loans are valued at their outstanding balances, which approximate fair value. The TPA reviews participant loans receivable throughout the year to identify defaulted loans, which are taxable to the participant in the year of default. The loan status remains in default until either the participant pays the outstanding amount or upon separation, at which time the defaulted loan amount is reduced from the participant's account balance. Once a loan default occurs, the participant is prohibited from receiving another loan from the loan program unless/until the loan is paid off. *Loans Receivable from Participants* represents the value of participant account balances on loan as of December 31, 2025 and 2024.

Securities Lending

The Savings Plus securities lending program ("Securities Lending") is a non-cash collateral program. Bonds are received as collateral on Securities Lending transactions and are reported as investments in the accompanying combined financial statements. Refer to Note 3 for further discussion. The SSGA TDFs and the Northern Trust Small Mid Cap Index fund participate in securities lending pursuant to the terms of their respective Declaration of Trusts. A portion of the securities lending revenue is reinvested into the relevant investment options for the benefit of the investors of the funds.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 3 INVESTMENTS

This section describes the Plan's authorized investments, investments authorized by debt agreements, disclosure about fair value of financial instruments, securities lending, investment fees, interest rate risk, credit risk, custodial credit risk, foreign currency risk, and concentration of credit risk.

Authorized Investments

As of December 31, 2025, pursuant to sections 19993.05 and 19999.5 of the *California Government Code*, assets of the Plans may be invested in a broad range of investment options. The Department of Human Resources ("Department") shall have the exclusive authority to determine the investment products provided in the core portfolio under tax-advantaged retirement savings plans and shall make these selections in a prudent manner for the exclusive benefit of Plan participants, retirees, and their beneficiaries. The Department shall ensure that the cost of these investment options is reasonable under the prevailing facts and circumstances and that any investment alternatives are determined to be appropriate for the core portfolio. The investment options available under the tax-advantaged retirement savings plans shall also be limited to the extent necessary to ensure the continued qualification of the plans under the Internal Revenue Code, applicable to state law, and the cost-efficient and timely administration of the Plans. In addition to the core options, the Department shall offer a brokerage option.

Although the Plans are exempt from the provisions of Section 3(32), Title I, of the Employee Retirement Income Security Act of 1974 ("ERISA"), CalHR generally follows the fiduciary best practices as outlined in ERISA.

The Plan's investment structure and portfolio design for the Main Plan is intended to provide participants with the option to invest their assets in a manner such that the investment options satisfy the requirements of ERISA Section 404(c). This section generally requires that the investment structure of a participant-directed defined contribution plan offers participants an opportunity to exercise control over the assets in their individual account and an opportunity to choose from a broad range of investment options that allow participants to construct a diversified portfolio appropriate to the individual's investment strategy to accumulate retirement savings or achieve other savings objectives, which is a function of multiple personal factors, including but not limited to age, income, time horizon, risk tolerance, return expectations, accumulation objectives, anticipated pension and Social Security benefits, and other assets outside of the Plan.

The Plan's *Investment Policy Statement (IPS)* indicates the Plan intends to offer a broad range of investment options, including at least three investment alternatives, each of which is diversified and has materially different risk and return characteristics. By selecting among such investment alternatives, participants can diversify their balances and construct portfolios consistent with their unique individual circumstances, goals, time horizons, and risk tolerance. Investments are governed by the respective fund's investment guidelines outlined in the fund fact sheets and in the investment advisory agreements, respectively.

NOTE 3 INVESTMENTS (CONTINUED)

Authorized Investments (Continued)

No fiduciary of the Plan shall be liable for any loss that results from any individual investment choice made by a participant of the Plan, except in the case of malfeasance or misfeasance by any fiduciary of the Plan.

The Plan offers participants the option to choose among TDFs, actively managed funds, index funds, and an SDBA. The investment options and Assets Under Management (in thousands) consisted of the following at December 31, 2025:

	2025

NOTE 3 INVESTMENTS (CONTINUED)

Investments Authorized by Debt Agreements

Except for the SDBA, Plan investment options do not include individual bond issuances. Bond exposure is limited to open-end investment options provided through Victory Capital Management Inc. (formerly Amundi Pioneer Institutional Asset Management, Inc.) and Galliard Capital Management, LLC (Bond Fund), BlackRock Financial Management, Inc. (Bond Fund and Bond Index Fund), Voya Investment Management Co. LLC and Allspring Global Investments, LLC (STIF-PST through December 5, 2025), Boston Trust & Investment Management Company (Socially Responsible Fund), Cohen & Steers Capital Management, Inc. and RhumbLine Advisers Limited Partnership (Diversified Real Return Fund through December 5, 2025), Invesco Advisers, Inc. (Stable Value Fund), and State Street Global Advisors Trust Company (TDFs).

Disclosure about Fair Value of Financial Instruments

The Plan's investments are recorded at fair value as of December 31, 2025 and 2024. GASB Statement No. 72 - *Fair Value Measurement and Application* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and consider the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the Plan's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

- Level 1 Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2 Investments with inputs – other than quoted prices included within Level 1 – that are observable for an asset, either directly or indirectly.
- Level 3 Investments classified as Level 3 have unobservable inputs for an asset and may require a degree of professional judgment. The fair value hierarchy gives the lowest priority to Level 3 inputs.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 3 INVESTMENTS (CONTINUED)

Disclosure about Fair Value of Financial Instruments (Continued)

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible in its assessment of fair value.

Investments in the Stable Value Fund-PST are valued at contract value reported daily by Invesco, which approximates fair value. The investment valuation includes contributions received, plus investment income earned to date less applicable charges and amounts withdrawn.

Investments measured at amortized cost include money market funds or cash equivalents, which approximate fair value.

The following table summarizes the Plan's investments (in thousands) within the fair value hierarchy at December 31, 2025 and 2024:

	At 12/31/2025	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total Investments	<u>\$ 24,272,876</u>			

Investment Options, as identified above, comprise the Target Date, Core Active, and Core Passive funds as listed in the Combined Statements of Fiduciary Net Position. These funds are comprised of positions in various separately managed accounts, collective investment trusts, and mutual funds. Refer to Note 1 Portfolio Structure and Note 3 Authorized Investments for more information.

Investments in certain entities that calculate a net asset value (“NAV”) per share (or its equivalent) sometimes do not have a readily determinable fair value. For these investments, governmental accounting standards permit establishment of fair value using a practical expedient based on the NAV per share (or its equivalent). The following table summarizes the Plan’s investments measured at NAV (in thousands), unfunded commitments, the investment redemption frequency and redemption notice period as of December 31, 2025 and 2024:

	Investments Measured at Net Asset Value			
	At 12/31/2025	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Investment Options ⁽¹⁾	\$ 10,343,691	\$ -	Daily	1–3 Days
Total Investments at Net Asset Value	<u>\$ 10,343,691</u>	<u>\$ -</u>		

⁽¹⁾ Comprised of 14 collective investment trust investment strategies (11 TDFs and 3 index funds). Each are valued at the net asset value of units held at the end of the period, based upon the fair value of the underlying investments .

⁽²⁾ Comprised of two collective investment trust investment strategies. Each are valued at the net asset value of units held at the end of the period, based upon the fair value of the underlying investments.

Securities Lending

The Plan's investment portfolio participates in a non-cash (bonds borrowed) Securities Lending program managed by JPMorgan Chase Bank, N.A. ("J.P. Morgan"), whereby securities are loaned for the purpose of generating additional income, which is used by the Plan to offset administrative expenses. J.P. Morgan is responsible for making loans of securities on a collateralized basis from the Plan's investment portfolio to various third-party broker dealers and financial institutions. The fair value of the required bonds used as collateral must initially meet or exceed 102 percent of the fair value for dollar denominated securities secured by dollar denominated government securities, 102 percent for non-dollar denominated securities secured by government securities in the same denomination as the lent securities, 105 percent for dollar denominated securities secured by non-dollar denominated government securities, and 105 percent for non-dollar denominated securities secured by government securities in a different denomination from the lent securities, thus providing a margin against a decline in the fair value of collateral. Collateral is marked-to-market each business day to ensure the fair value of the collateral meets the collateral requirements.

The types of securities available for loan during the year ended December 31, 2025 and 2024 included U.S. Government securities, U.S. Government agencies, Corporate bonds, Non-U.S. Fixed Income, U.S. equities, and Non-U.S. equities. The contractual agreement in place at calendar year-end between the Plan and J.P. Morgan as the Securities Lending agent provides indemnification in the event the borrower fails to return the securities lent or due to borrower default. U.S. Government Securities, U.S. Government Agencies, and U.K. Gilts are received as collateral for these loans and are held in safekeeping until such time that the borrower returns the loaned assets.

Since the Securities Lending program is a non-cash collateral program, bonds are received as collateral on Securities Lending transactions. At December 31, 2025 and 2024, the fair value of equity securities on loan was \$620.5 million and \$1.146 billion and the fair value of the bonds on loan was \$226.7 million and \$264.2 million, totaling \$847.2 million and \$1.410 billion, respectively, in Securities Lending obligations. The value of securities on loan are included within the investments in the accompanying combined financial statements.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 3 INVESTMENTS (CONTINUED)

Securities Lending (Continued)

Borrowers pay a fee to the Plan to borrow the securities. Revenue received by the Plan is used to help offset Program administrative expenses. The gross Securities Lending revenue for 2025 and 2024 was \$1.5 million and \$2.0 million, respectively. Securities Lending fees paid to J.P. Morgan for 2025 and 2024 were \$373 thousand and \$500 thousand, respectively. Net income to the Program for 2025 and 2024 was \$1.1 million and \$1.5 million, respectively.

Regarding counterparty credit risk, the Plan's bond collateral is held by the counterparty and is uninsured. All securities loaned can be terminated on demand by either the Plan or the borrower. Loans to an individual counterparty may not exceed 25 percent of the Plan's lendable portfolio. At December 31, 2025 and 2024, there had been no losses resulting from borrower defaults and the Plan had nominal credit risk exposure to borrowers related to any potential shortfall between J.P. Morgan's indemnification coverage and borrower collateral.

Short Term Investments

Short Term Investments consist of the STIF (through June 6, 2025), STIF-PST (through December 19, 2025), and the STIF-Cash funds. The STIF and STIF-PST invested in fixed income securities including securities issued by the U.S. Government, U.S. Agencies, corporate bonds, residential and commercial mortgage-backed securities, and asset-backed securities. The STIF-Cash provides safety and stability through money market funds. The STIF-Cash managers include Government Money Market funds that invest primarily in U.S. Government related securities and Prime Money Market funds that invest primarily in a portfolio of high-quality, dollar denominated fixed-income securities issued by banks, corporations, and the U.S. Government.

Investment Fees

The Plan's investment managers charge an investment management fee to manage the investments. Additionally, there is a nominal Trustee/Custodial fee for J.P. Morgan's trustee and custodial services. The investment fund expense ratio represents the summation of these fees.

The Plan assesses an annualized 0.30 percent expense reimbursement fee against the Stable Value Fund-PST to help offset the costs of PST Program administration.

Investment-related expenses are included in net appreciation in fair value of investments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates could adversely affect the fair value of an investment. Since all investments are participant-directed, all risks exist at the participant level. Each individual participant within the Plan may liquidate their positions on demand and has responsibility for managing their exposure to fair value loss.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 3 INVESTMENTS (CONTINUED)

Interest Rate Risk (continued)

Certain fixed income investments within the International Fund, Bond Fund, Bond Index Fund, STIF–Cash, STIF, STIF-PST, Socially Responsible Fund, Small Mid Cap Fund, SSGA TDFs, Stable Value Fund, and Stable Value Fund-PST are subject to interest rate risk. Additionally, these funds hold non-fixed income investments that are not subject to interest rate risk.

The following tables show the December 31, 2025 and 2024 value of investments subject to interest rate risk. These investments are unrated. CalHR selects the weighted average maturity as its primary mechanism for reporting interest rate risk. Fair value (in thousands) and weighted average maturity (in years) for each applicable investment and its respective fund(s) are as follows:

Investment	Fund(s)	Fair Value at 12/31/2025	Weighted Average Maturity
MFS International Growth	International Fund	\$ 6,664	0.01
Galliard Broad Market Core	Bond Fund	186,156	14.44
Transition Account STIF Phase 2	STIF-PST	23	0.32
Boston Trust SRI	Socially Responsible Fund	131,176	6.98

Credit Risk

Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligations, such as the chance that a bond issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer’s ability to make these payments will cause security prices to decline. These circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation, and/or adverse political developments. Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk.

NOTE 3 INVESTMENTS (CONTINUED)

Credit Risk (Continued)

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately to repay the principal. Credit quality is evaluated by one of the independent bond-rating agencies – for example, Moody's Investors Service ("Moody's"), Standard and Poor's ("S&P"), or Fitch Ratings ("Fitch"). The lower the rating, the greater the chance, in the rating agency's opinion, that the bond issuer will default or fail to meet its payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

At December 31, 2025, the fair value of investments subject to credit risk for the Plan's Invesco Stable Value Fund was \$119.8 million with an average issuer rating of AA- and an average asset rating of AA.

At December 31, 2025, the fair value of the SSGA TDFs was \$7.9 billion. These funds invest in underlying funds that hold investments subject to credit risk. The average issuer credit rating for the TDFs by investment option was as follows:

Investment Option	Fixed Income Average Credit Quality	Real Return Average Credit Quality
SSGA Target Date – Income	A1	Aa1
SSGA Target Date – 2025	A2	Aa1
SSGA Target Date – 2030	A2	Aa1
SSGA Target Date – 2035	A1	Aa1
SSGA Target Date – 2040	Aa3	N/A
SSGA Target Date – 2045	Aa2	N/A
SSGA Target Date – 2050	Aa2	N/A
SSGA Target Date – 2055	Aa1	N/A
SSGA Target Date – 2060	Aa1	N/A
SSGA Target Date – 2065	Aa1	N/A
SSGA Target Date – 2070	Aa1	N/A

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 3 INVESTMENTS (CONTINUED)

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Plan's deposits may not be returned to it. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are (a) uncollateralized, (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent, but not in the Plan's name.

All deposits of the Plan are held on behalf of the Plan by the Plan's custodian in accordance with the formal deposit policy for custodial credit risk and are not exposed to custodial credit risk, as defined by Governmental Accounting Standards Board Statement No. 40.

The Plan does not include FDIC-backed investment vehicles. As such, at December 31, 2025 and 2024, no assets or accounts required collateralization.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates could adversely affect the fair value of the investment. At December 31, 2025 and 2024, the fair value of these investments held at the Plan's custodian was \$555.0 million and \$1.056 billion, respectively. In addition, the Plan invests in the Northern Trust International Index fund, which invests nearly 100% in securities held in foreign currencies. At December 31, 2025 and 2024, the fair value of these investments was \$702.2 million and \$1.132 billion, respectively. The SSGA TDFs invest in international funds, which are valued in USD, but hold assets in foreign currencies. Therefore, Savings Plus may have indirect exposure to foreign currency risk through its investment in these funds. The investment options containing international exposure are identified with an asterisk in the Authorized Investments table within Note 3.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. The Plan's investments are managed by several investment managers. The concentrations of investments are determined by the participants' elections to invest in the available investment options. The investments with percentages that exceed five percent of the Plan's net position are identified in bold font in the Authorized Investments table within Note 3. Since all investments are participant directed, all risks exist at the participant level. Each individual participant within the Plan may liquidate their position on demand and has responsibility for managing their exposure.

**CALIFORNIA DEPARTMENT OF HUMAN RESOURCES
SAVINGS PLUS PROGRAM
NOTES TO COMBINED FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024**

NOTE 4 RECEIVABLES

Contributions/Transfers Receivable

At December 31, 2025, contributions/transfers receivable totaled \$109.8 million, with \$61.3 million in the 457(b) Plan, \$47.2 million in the 401(k) Plan, and \$1.3 million in the PST Program. At December 31, 2024, contributions/transfers receivable totaled \$105.6 million, with \$59.1 million in the 457(b) Plan, \$45.2 million in the 401(k) Plan, and \$1.3 million in the PST Program. These values are reported as contributions receivable in the accompanying combined financial statements.

Loans Receivable

At December 31, 2025, outstanding participant loans totaled \$233.1 million, with \$141.4 million in the 457(b) Plan and \$91.7 million in the 401(k) Plan. At December 31, 2024, outstanding participant loans totaled \$196.7 million, with \$116.9 million in the 457(b) Plan and \$79.8 million in the 401(k) Plan. These loan values are reported as loans receivable from participants in the accompanying combined financial statements.

NOTE 5 TRANSFERS

In the Combined Statements of Changes in Fiduciary Net Position, *Transfers In* includes rollovers and transfers of assets into the Plan. *Transfers Out* includes rollovers and transfers of assets out of the Plan. This value may also include taxes voluntarily withheld on In Plan Roth Conversions.

NOTE 6 TERMINATION RIGHTS

Although it has not expressed any intent to do so, the state has the right under the Plan to discontinue employee deferrals and to terminate the Plan. Upon termination of the Plan, benefits under the Plan would be payable as provided in the Plan documents.

NOTE 7 TAX STATUS

The IRS has determined and informed the Plan by letter dated April 4, 2019 that the 457(b) Plan and related trust are designed in accordance with Section 457 of the IRC, by letter dated January 11, 2017 that the 401(k) Plan and related trust are designed in accordance with Section 401 of the IRC, by letter dated January 12, 2010 that the PST Program and related trust are designed in accordance with Section 457 of the IRC, and by letter dated July 7, 2011 that ARP and related trust are designed in accordance with 401(a) of the IRC and, as such, are not subject to tax under present income tax law. CalHR, as the Plan administrator, believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Ms. Monica Erickson, Director
California Department of Human Resources
Savings Plus Program
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the audited combined financial statements, and the notes of the audited combined financial statements of State of California, Department of Human Resources Savings Plus Program (the Plan), which comprise a 457(b) Plan, a 401(k) Plan, a Part-time, Seasonal, and Temporary Employees Retirement Program (PST Program), and an Alternate Retirement Program (ARP), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements, and have issued our report thereon dated May 12, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Plan's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

UHY LLP

Columbia, Maryland
May 12, 2026
