4th Quarter 2025 Investment Performance Results – Without Plan Charges

The following are the percentage changes in Net Asset Values (with capital gains and income dividends reinvested) without reduction for Plan Charges for the respective periods ending December 31, 2025. Savings Plus charges a quarterly administrative charge of \$6.00 per plan and a quarterly asset-based fee of 0.01% assessed against the first \$600,000 of your account balance, including active loan balances and Schwab Personal Choice Retirement Account (PCRA) balances, capped at \$60 per quarter per plan. These fees appear in the “Transaction Details” section of your quarterly statement and are withdrawn pro-rata from all funds.

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s units, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained online at savingsplusnow.com.

Expense ratios represent the fund’s total operating expenses expressed as a percentage of the assets held in the fund. Gross expense ratios do not reflect any fund management expense waivers or reimbursements (which, if reflected, would give you a net expense ratio). For more information about management expense waivers or reimbursements, refer to the fund fact sheet.
