

Savings Plus

4th Quarter 2017 Investment Performance Results – Without Plan Charges

The following are the percentage changes in Net Asset Values (with capital gains and income dividends reinvested) without reduction for Plan Charges for the respective periods ending December 31, 2017. Savings Plus charges a monthly administrative fee of \$1.50 per plan which appears in the “Transaction Details” section of your quarterly statement and is withdrawn pro-rata from all funds.

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s units, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained online at savingsplusnow.com.

Expense ratios represent the fund’s total operating expenses expressed as a percentage of the assets held in the fund. Gross expense ratios do not reflect any fund management expense waivers or reimbursements (which, if reflected, would give you a net expense ratio). For more information about management expense waivers or reimbursements, refer to the Fund Fact Sheet.

Please consider the fund’s investment objectives, risks, and charges and expenses carefully before investing. The Fund Fact Sheets contain this and other important information about the investment company. Fund Fact Sheets are available on the website or by calling (855) 616-4776. Read the Fund Fact Sheets carefully before investing.

End Notes

- (1) This fund is a separately managed portfolio of assets managed specifically for Savings Plus. It is not a mutual fund. See the Fund Fact Sheet for more information.
- (2) This fund is a passively managed commingled fund (collective trust). It is not a mutual fund. See the Fund Fact Sheet for more information.
- (3) Redemption fees may apply to these funds. See the Transfer Restrictions and Redemption Fees document on the savingsplusnow.com website. Refer to the Fund Fact Sheet for more information.
- (4) The Target Date Funds replaced the Asset Allocation Funds as of market close March 21, 2014 and have a limited return history. See the Fund Fact Sheet for more information.
- (5) No transaction fees are charged. Instead, the funds indirectly incur management fees that are charged by the underlying investment funds in which the funds invest. The estimated expense ratio consists of operating expenses, including management fees and nominal trustee services fees, and an administrative expense of five basis points expense reimbursement. Fees are netted out of the performance of the funds. For the STIF-Cash Fund, approximately 0.025% of this expense is reimbursed to Savings Plus from the Fund's underlying Investment Managers.
- (6) Market indexes have been provided for benchmark comparison purposes only. They are unmanaged and no fees or expenses have been reflected here. Individuals cannot invest directly in a market index. Although gathered from reliable sources, data accuracy and completeness cannot be guaranteed.

Key Risks

- (7) Bond funds have the same interest rate, inflation and credit risks that are associated with the underlying bonds owned by the fund.
- (8) Stocks of small or emerging companies may have less liquidity than those of larger, established companies and may be subject to greater price volatility and risk than the overall stock market.
- (9) Investing internationally involves risks not associated with investing solely in the U.S., such as currency fluctuation, political risk, differences in accounting and the limited availability of information.
- (10) Target Date Funds invest in a wide variety of underlying investment options to help reduce investment risk. Their expense ratio represents a weighted average of the expense ratios and any fees charged by the underlying investment options in which the Funds invest. The Funds do not charge any expense or fees of their own. Like other funds, target date funds are subject to market risk and loss of principal can occur at any time, including before, at or after the target date. There is no guarantee that target date funds will provide enough income for retirement or that asset allocation, diversification or any investment strategy will assure a profit or avoid losses.

Effective January 2, 2018 (trade activity after market close on December 29, 2017), the Target Date Funds are subject to a short term trade restriction policy. Redemption fees may apply.
